

# 2017 DHSWP Auction Hostas

**Allegan Fog**

**Mature Size: 12" T x 40" W**

**Allegan Fog is a viridescent Hosta 'Fortunei'-type and will turn mostly green by late summer. Sun tolerant and a vigorous grower. Pale Lavender Flowers.**

**Angelique**

**Mature Size: 20" T x 36" W**

**Sun tolerant. Yellow margins turn white later in the season. Lavender flowers.**

**Ayesha**

**Is a small to medium sized hosta and a sport of June Fever. A Jan van den Top hosta.**

**Christmas Pageant**

**Mature Size: 20" T x 42" W**

**Sport from Christmas Tree. Vigorous Grower. Thick corrugated leaves with pale lavender flowers.**

**Clear Fork River Valley**

**Mature Size: 28" T x 50" W**

Very popular introduction from Van Wade (07) that offers some of the heaviest corrugation seen on a hosta. Dark green thick leaves are heavily corrugated and puckered. Very pale lavender flowers.

**Clown's Collar**

**Mature Size: 8" T x 15" W**

A small edged sport of H. Dorset Clown'. Yellow edge turns white later in the season. Good Substance. A Don Dean registered hosta.

**Crocodile Socks**

Jan Van den Top brings us the tetraploid form of H. 'Alligator Shoes'...thick green and pebbled leaves have a very wide creamy-yellow border that often streaks to the center. Medium size and soft lilac flowers.

**Deliverance**

**Mature Size: 12" T x 30" W**

Elongated blue-green leaves have a rippled, creamy-white uneven border that creates a striped effect. Nice plant with unusual appearance.

**Enchiladas**

**Mature Size: 16”T x 30”W**

**Sport of 'Avocado' and has very fragrant flowers. Almost round leaves are dark green and shiny with a yellow center. The Originator is G. Heemskerck. Sterile and will not set seed.**

**Fashionista**

**Mature Size: 14”T x 30”W**

**Sport of 'Designer Genes' leaves are bright gold surrounded by a white border on red petioles. Purple flowers. (M. Zilis 2011)**

**Golden Meadows**

**Mature Size: 18”T x 36”W**

**Very distinctive hosta with corrugated and twisted leaves. Blue-green margins with bright gold centers in spring. The leaf center will darken as the season progresses but can retain some gold if sited in a bright location. Super substance and white flowers in summer.**

**Hanja's Crazy Mouse**

**Cannot find much on this very new member of the mouse family. I was told by someone in the hosta world that this hosta was only given out to “certain people”. I got this from Naylor Creek last December. They only had a very limited number of these to sell. Haven't seen any For sale since.**

**Hi Ho Silver**

**Mature Size: 6" T x 12" W**

**Hi Ho Silver' Hosta is a sport of 'Ginko Craig'. Lance-shaped leaves are olive green with pure white margins. Leaves are cupped and rippled for added contrast. Dark purple flowers appear in late summer. (Walters Gardens 1997)**

**Mango Smoothie**

**Mature Size: 12" T x 20" W**

**Wavy yellow foliage is held on bright red petioles. Forms a very nice mound of sun tolerant yellow leaves. The red is on both sides of the petioles and bleeds into the leaf. Lavender flowers on red scapes. Solberg 2011**

**Miss Linda Smith**

**Mature Size: 16" T x 30" W**

**Blue-green with a white back. Strong petioles, purple all the way to the leaf. Light purple flowers. Wrede in 2006. He (Wrede) considers this his best introduction.**

**October Sky**

**Mature Size: 14" T x 30" W**

**Vase-shaped mound of intensely blue leaves that hold their color late into the season. Near white flowers in late summer. (D Dean 2008)**

**One Last Dance**

**Mature Size: 16" T x 38" W**

**Hosta 'One Last Dance' is a sport of the popular Hosta 'Dancing Queen'. Dark green leaves have attractive yellow margins that are gently rippled. Near white flowers. (Walters Gardens)**

**Ophir**

**Mature Size: 15" T x 26" W**

**Bright elongated gold leaves with cherry red petioles on an upright clump. Color fades to chartreuse by midseason and topped with lavender flowers. (Fischer)**

**Paradise Expectations**

**Mature Size: 24" T x 50" W**

**Large hosta with reverse coloration of 'Great Expectations'. Attractive hosta with blue-green leaves and a bright gold margin. Heavy corrugation and attractive foliage make this hosta stand out in the hosta garden. Near white flowers.**

**Paradise Sunset**

**Mature Size: 10" T x 30" W**

**Variegated sport from H. 'Hydon Sunset' Dainty green leaves have a good border and dark purple flowers. Vigorous grower. (Fransen)**

**Playmates**

**Mature Size: 18" T x 30" W**

Jan Van den Top loves sports from H. 'Striptease' and here is another interesting one! Starts out looking similar to some of the others but then turns into a wavy and twisted clump comprised of yellows and greens with the white line between the center and border.

**Prom Queen**

**Mature Size: 18" T x 30" W**

Nice introduction with 3 distinct colors on a yellow leaf...a wide blue-green border and where there is overlap a bright green appears. The center changes to a creamy-white and the clump is topped with lavender flowers. Pretty good grower For a white centered hosta.

**Proud Treasure**

Jan van den Top's exciting new (2016) chemical-induced tetraploid sport of his 'Secret Treasure'. Leaves are dark green, thick and shiny, but framed by a wide yellow border that turns creamy later in the season with attractive red petioles. Good Grower. **LIMITED AVAILABILITY.** 6

**Red Stepper**

**Mature Size: 15" T x 20" W**

Seedling from 'Invincible'...like it's parent it loves the sun and has bright reflecting blades that glisten when the light hits them. Add to this, bright red Petioles and pale lavender flowers late.

**Remember Me**

**Mature Size: 15" T x 25" W**

**A mutation from the popular H 'June'. Instead of the typical golden center it has a striking, pure white center, surrounded by a contrasting blue-green border. Lavender flowers midsummer.**

**Donated by Karen Schmidt.**

**Sleeping Star**

**Mature Size: 16" T x 30" W**

**Sport from H. 'Sleeping Beauty. Beautiful frosty blue leaves have a wide creamy border that changes to white. Lavender flowers. Jan Van den Top.**

**Touch of Flame**

**The medium sized hosta is a sport of H. 'Searing Flame'. Green leaves have a white center and are rather twisted and wavy. Pink scapes with lavender flowers on top. This hosta is also known in the trade as 'Tongue of Flame' or 'Tongue of Flavor'.**

**Tripple Ripple**

**Mature Size: 20" T x 50" W**

**Vary large soft green leaves with a thin yellow margin that is heavily rippled and thick substance.**

**Winsome**

**Mature Size: 8" T x 24" W**  
**Heart-shaped green leaves with a good creamy-white border, 'Pin Stripe Sister' hybrid. Lavender flowers. Great growth rate and looks nice in mass planting. (Dick & Jane Ward 1996)**

**Yin**

**Mature Size: 12" T x 26" W**  
**Leaves emerge blue-green with a gold border. When the glaucous coating fades the leaves are a shiny dark green with creamy white margins. Vigorous grower that shines in the shade garden. Lavender flowers. (J & S Wilkins 2002) Sport of 'Maize and Blue'**

**Smiling Mouse**

**This mini hosta is Jan's latest addition to the Mouse Club--blue green leaves sport a nice wavy greenish border. Vigorous grower and makes a nice specimen.**

**First Blush**

**Mature Size: 12" T x 24" W**  
**Green leaves with red petioles with thin Red margin around entire leaf. In Spring the leaf between veins will "blush" red. Donated by Chuck & Ann Olecski.**
